“My peer mentor, KristiLynn, has been an incredible support system throughout my academic journey. Her willingness to help, vibrant personality, and proactive approach have made every interaction enjoyable and valuable. KristiLynn consistently checks in on my progress, offering support and guidance when needed, which has been instrumental in keeping me motivated. Her mentorship has been overwhelmingly positive, however I do wish we could spend more quality time together, but it was difficult with our busy schedules. Nonetheless, I am immensely grateful for KristiLynn's support and consider her an invaluable asset in my academic endeavors.”
